Struggle Oh Sons of our Nation for the
Maintenance of Liberty and Democracy
and to Overthrow the Criminal Government
of the Traitor Nuri As Sa'id

25X1

Hail the October Revolution!

All the nations of the world generally and the Soviet Union particularly are celebrating the 33d anniversary of the October Revolution Day.

This Revolution, led by the Bolshevik Party, has realised a fundamental change in the course of history. It developed the labor movement and its power against the Bourgeois societies. This is clear from the progress of the Socialist movements and its correct leadership of those nations who adopted the Socialist regime.

Thirty-three years have passed since the October Revolution began and now we see that the great Soviet government, headed by Stalin, is defending the peace and democracy against the bestial crimes of the Fascist Americans who are threatening the world by the Atomic arms and the Hydrogen bomb and who are now killing and trying to colonise the free Korean nation. On the other hand, we see the Soviet nation carrying out the many constructional reforms, educational and social schemes for a better and happier life.

On the part of the colonised countries such as Korea, we see that the peace-loving nations are doing their best to assist the weak and unprogressive nations of Asia and to stimulate their activities against the Imperialists.

Our Iraqi nation greets the October Revolution and greets the Soviet Union, the fortress of peace and democracy, and greets the man Stalin, the boss of the toiling nations. The Iraqi nation also greets the nation's struggle for the sake of bread, liberty, and a free and democratic "Iraq" against the Anglo-American Imperialist warmongers.

Our nation is walking steadily in the path of its liberation from the foreign Imperialists. The Fascist Nuri As Sa'id cannot, through his terrible methods, deter this struggle. The nation will succeed in bringing down the criminal spy government of Nuri As Sa'id. Long live the name of Lenin! Glory and life to Stalin! Long live the Iraqi-Soviet friendship! Death to warmongers and their servants the traitors.

The 33d Anniversary of the October Revolution has been celebrated by the Soviet Bolshevik Party headed by the nations of the Soviet Union. This revolution was led by Lenin and Stalin together in October 1917. This party has won victory after victory in arriving at Communism.

Our party has followed the same way. It was led by our

OFFICIALS ONLY

great leader Fahad, but certain elements in the party deviated from the main principles which caused the retrogression of some of its activities accomplished by Fahad. The party received doubled blows which ensured certain aims of the Imperialists.

Some of the elements which ~~were~~ deterred our party's activities are the individuals, the Titoist Abboud, Hammoud Al Rawi, the spy Shenour Oda and Aziz Sherrif and Salim Obaid. These people have called their groups by many names, such as Control Committee or the (Unification) of all the parties into one Communist Party. These movements or similar ones are only a manoeuvre to break up our unity.

(Glory to the October Revolution)

The effect of the October Revolution, through the passing many years has proved to be firm and everlasting and has participated in all the liberal movements in the world. The Peace Supporters' Conference, held in Moscow, is but an expression of the peace defending spirit. The suggestions mentioned were for the reinforcement of the Korean nation's struggle against the American invasion and to list the warmongers so that all the nations may know their names. Everybody in the Soviet Union declared his love for peace and his hate of wars.

The Soviet Union is engaged at the present time in a scheme for peace, such as world benefit from electrical power development of oil production. It is also intended to extend the economical, political, educational, technical, and military fields.

The 10th November The Universal Youth Struggle

The Universal Youth Struggle assembly held its first conference in 1945 to reinforce the fellowship between the youths from all over the world and to join their efforts to maintain peace and democracy.

The 10th November of every year is considered as a day of celebration for making festivals and to support the struggles for peace and democracy. Many victories have been accomplished by the youth movements. Oh liberal Iraqi youths, laborers, farmers, students, educated, workers, we have been worried by the despots, our enemies the Imperialists, foreigners and local traitors are in agreement to render our home as a bridgehead leading to an aggressive war against the nation's camp.

They have agreed to adopt a policy of starvation, imprisonment, and hanging against our nation. The is now at hand when

- 3 -

we should be united against the bloodsuckers of our nation and the robbers of our home food, so that we may be released from the despotic rule and get our peace and liberty and independence. Victory will be ours. Let us hurry to revenge the blood of our martyrs by bringing down the government of the criminal spy Nuri As Sa'id, and smashing the Portsmouth Gang and the Clyton assembly so that we will be able to get our national rights.

The Democratic presses protest to the Iraqi government and request the stopping of the terrible activities and the releasing of the liberal political prisoners.

The crimes and atrocities of the Iraqi authorities, committed through the following of their imperialist lords, the English, against our bread and the nation's liberties, have been disclosed by the two telegram messages of protest sent by the Student World Union in Paris, France.

To The Iraq Government

We, the 5 Million Students of the Student World Union, protest strongly against breaching the fundamental liberties and the philanthropic principle by the Iraqi Government. We also protest against the bad condition of the prisoners in Nugrat Al-Salman concentration camp. We request that these prisoners be released.

8-9-1950
Telegram

To The Prime Minister, Baghdad

We strongly protest against the public opinion and deliberate persecution. We also protest against the inhuman treatment of the prisoners of the Concentration Camp at Nugrat Al-Salman, and request their release immediately. The Humanité of the French Communist Party, in its number dated 9 August 1950, published an article under the heading of 200 Iraqis are threatened by death.

Atrocious news is being received from prisoners in Iraq as a result of their political ideals in the Concentration Camp (Nugrat Al-Salman), situated in the middle of the desert on the Iraqi-Saudi borders about 150 kilometres from Samawa. They are detained in small underground rooms, no sun rays penetrate this place, the food given to the prisoners is of a bad quality.

Many prisoners died suffering from tuberculosis as a result of bad dieting. We are then encouraging you to listen to the cries of the mothers, widows, old men, and children to rescue their men from a slow death. In the name of justice and humanity, we protest against this bestial treatment and would like to send a representative to the Iraqi Legation situated at the United States Square in Paris.

Conference of the Peace Supporters is a new
Caution to the warmongers.

The United States of America refused a few months ago to allow the holding of the World Peace Supporters' Conference in the United States. It was then decided to hold it in Sheffield, England, in the middle of the current month. But the British government of Attlee wished to prove its loyalty to its big lords and partners, the Americans.

The British government therefore refused to grant the visa to the majority of the members coming from about 70 countries, including the big French scientist, chairman of the permanent Committee Bureau of the World Peace Conference, Joliot-Curie, and the famous Russian writer, Ilya Ehrenburg.

These representatives are not only representing 5 million people who signed the Stockholm Proclamation, but also millions of the poor, simple people in the colonies and imperialised countries. It was then decided to hold this conference in Warsaw, Poland.

This conference will include thousands of laborers, farmers, educated men, artists, religious men, etc., of different languages, creeds, political ideals.

The Central Committee of the Bolshevik Communist Party of the Soviet Union, in its entirety, sends this greeting to all the nations of the world on the occasion of the October Revolution:

Brotherly Greeting to:

All the peace loving nations who are against the warmongers!
All the great Chinese nation.
All the Korean nation.
All democratic forces in Western Germany.
All the Yugoslav nation for the liberation from the Tito police regime.
Long live the friendship between the nations of England - America - Soviet Union.
All the nations of the colonies for independence and liberty.

525
The As-Said government refused to give a passport to the poet Mohamad ~~Manda~~ Al-Jawahry, which rendered him unable to attend the Peace Supporters' Conference.

448
King Abdullah, the servant of the British imperialism, revisited Baghdad a few days ago for the purpose of realising the Iraqi-Syrian Union.
